TAX RATE PROBLEM.

which the tax rate for the coming fiscal year will be based, was made much more difficult than in previous years by the change in the taxation system made by the recent constitutional amendment, exempting corporations from municipal taxation. Auditor Gross made a special trip to Sacramento to obtain the advice of the state officials as to the operation of the new law concerning the exemption of banks and corporations, and has based his compilations on recommendations from Sacramento.

ASSESSED VALUATIONS.

As a consequence of the new method of taxation, the assessed valuation of property in Oakland for this current year will be \$10,159,800 less than last year. The assessed valuation of last year was \$127,000,000, while that for this year is only \$116,000,000.

Under the new method of taxation corporations cannot be assessed by the city for operative property. This exempts virtually all the railroad lands, along the waterfront and takes from the city income sources much of the scattered properties of the companies.

City Auditor Gross submitted the following statement of the effect of the new law upon the city assessment:

RETURNS WITH POLICE.

Being unarmed, and realizing that the thug meant business, Anderson went the distance of a block, but returned with Officers George D. Bailey and Dave Johnson, who came hurredly, summoned by the noise of the explosion.

The cracksman had entered by a window and had placed too large a charge in the hole bored in the safe. The detonation broke the windows, threw the door from its hinges across the room, shattered the interior of the scattered properties of the companies.

City Auditor Gross submitted the following statement of the effect of the new law upon the city assessment:

EFFECT OF NEW LAW.

The recently enacted State law which provides that State taxes shall be raised solely from assessments of public service corporations, banks and

be raised solely from assessments of public service corporations, banks and insurance companies is nof effective and will have its first test in raising State revenues for the fiscal year 1911-12. Its influence will be strongly felt by the larger municipalities as the above mentioned classes of business endeavor are made exempt from local taxation.

Under old conditions our roll this year would have totaled approximately \$130,000,000, a gain of about \$4,000,000 over the figures of 1910-11. The assessment as made in conformity with the new law totals only \$116,000,000, which, as compared with the 1910-11 total, shows a loss of approximately \$10,000,000, about \$600,000 of which, as compared with the 1910-11 total, shows a loss of approximately \$10,000,000, about \$600,000 of which is offset by the assessment of state mortgages previously exempt.

The following tabulation sets forth the 1911-12 assessment by annexes (Continued on Page 2, Col. 4.)

LONDONERS ASTIR.

Londoners were early astir to witness, the arrival of the competing aviators at Hendon. The progress of the flight from Calais was indicated on great blackboards and by the explosion of agrial bombs. An elaborate system of pilotage had been arranged from Dover to Hendon as well as at the aerodrame to facilitate an easy passage and descent. Nevertheless Train lost his bearings near New Haven and was compelled to descend. He alighted rather roughly and his machine running down hilt, was damaged.

Vedrines, in his monoplane, was the first to arrive, reaching Hendon at 8:34:58. He said that he had had a splendid passage across and up the coast.

A half hour later Vedral descended, Kimmerling, Beaumont and Garwhat was going on in the inside one of the robbers, who had come noise-

WASHINGTON, July 3.—With skies practically cloudless the country over today, early reports to the weather bureau indicated that hot weather records might be broken in many sections. The day started with temperatures ranging from 2 to 16 degrees higher than yesterday morning in the larger cities, New York topping the list with a rise of from 72 to 88 degrees. In Chicago it was 84 as compared with 82 yesterday morning, in Washington the rise was from 78 to 84, and at Atlanta from 72 to 78. The government forecaster held out no hope of relief within the next 36 hours.

REFERRED TO MEMORANDUM.

Fairall referred to a memorandum n Behan's papers, addressed to East-man, to the effect that he had just man, to the effect that he had just returned from a call to Dr. Dodge, the assessor of San Francisco, to consult about his company's assessment. Behan admitted it was his writing. Fairall asked if the witness considered a letter asking for a conference on the subject of the company's assessment different from a telephone request. This question was based on thethe fact that Dalton had telephoned to Behan to call on him to talk about the assessment of the Spring Valley Company in Alameda county, and the witness had stated that he was surprised when the telephone message was received.

Behan replied that Assessor Dodge of San Francisco had sent a letter to his company and his superiors had told him to confer with the assessor

of San Francisco had sent a letter to his company and his superiors had told him to confer with the assessor on the other side of the bay.

'Fairall then read from a communitin to Eastman, written by Behan, showing the impression the witness had received of Dalton when he had talked with the latter regarding the changes of the assessment of the company's property requested by the witness. The witness stated that the sentiments be had expressed were the sentiments he entertained at the present time. He wrote that while Dalton expressed himself jocularly, the latter might afford the company some relief the following year. The memorandum was made in 1910.

At 2:30 o'clock this afternoon Fairall concluded his cross-examination of Secretary Behan, but did not go over the direct testimony of that witness regarding the manner in which \$5000 was procured in the bank and marked for identification and made ready for delivery, as alleged, to the defenant.

Exposure of the Steel Trust.

The Federal government has, at last, taken the initial step toward the prosecution of the United Steel Corporation, the greatest of the trusts organized in violation of the Sherman anti-trust law for the restraint of trade. The officials of the steel rail branch of the giant trust and the Tennessee Coal, Iron and Railroad Company, another of its subsidiaries, are to be criminally prosecuted, indictments against them for unlawful combination and conspiracy having been found by a Federal Grand Jury last week. And, now that the long expected report of the Commissioner of Corporations, which finds that the prime object of the creation of the United Steel Corporation was to stifle competition, has been submitted to the Bresident, the Federal Grand Juries of New York and other cities are to be called upon to take up the cases of other branches of the trust. Among the officials already indicted is Herbert Satterlee, the son-in-law of J. Pierpont Morgan. The anti-trust prosecutions to follow are to be directed, however, against the higher-ups, and it will not be surprising if Morgan himself should be included among those gathered into

The report of Commissioner Herbert Knox Smith's investigation of the Steel Trust is illuminating. The organization began to take form in 1898. Two years later, it had been crystalized into three dominating companies—the Carnegie, Federal Steel and National Steel. A year later six other concerns combined with these three. Soon after two other companies were absorbed. In 1907 the Tennessee Coal, Iron and Railroad Company was taken into the combine. The frenzied financial character of the deal is shown in the fact that while the tangible property of the combine was \$682,000,000, the trust was capitalized at \$1,402,000,000, the water thus injected into the stock representing the enormous sum of \$720,000,000. The syndicate which promoted the deal, of which Pierpont Morgan was one of the principals, netted \$62,000,000 in hard cash as its commission. No legitimate deal could have produced financial gain of such magnitude to any broker. The testimony taken by the Congressional investigating committee furnished the additional evidence of the "frenzied" nature of the transaction by showing that Carnegie received \$320,000,000 for the properties he transferred to the trust which, only a short time previously, he had offered to sell for \$160,-

The report of the Commissioner of Corporations finds, moreover, that during the past ten years the trust has paid average profits of 12 per cent per annum on the money actually invested in its tangible properties, valued at \$682,000,000. This enormous profit has been derived from its operations notwithstanding the fact that a large part of the investment is in undeveloped or idle property. In other words, the trust has paid an average annual profit of nearly 6 per cent on its watered capital. This it has been able to do through the restriction of competition, its domination of the iron and steel trade being secured by the ownership of 75 per cent of the lake iron ores on which the steel industry is now based and the locking up of Company, which, prior to its absorption by the trust was the trust's chief rival.

Without considering the wholesale robbery of the consumers of its products which has netted the steel trust nearly 6 per cent per annum on its watered capitalization, enormous additional profits finitesemal minority. of the organizers of the combine have been reaped from the public at large through the floating of its watered stock, which is now being quoted at 783/4 for common and 1187/8 for preferred. The monstrous iniquity of this phase of the trust magnates' operations is revealed by the Commissioner's statement that less than one-half The Empire of Rome, as we now look is the greatest of all time. In point of of these figures is covered by tangible property and that over one-half of the money of United Steel stock buyers has been invested in half of the money of United Steel stock buyers has been invested in be said only to have embraced the

Boss Lissner Gets a Fall.

Lincoln-Roosevelt Boss Meyer Lissner has been turned down hard in his own home town and by the creatures of his own creative political will and genius. The municipal board of public utilities was organized at Los Angeles as an advisory body to the administration on all matters relating to the public utilities, among other things the fixing of rates. The appointment of the members of the board is vested in the mayor, who owes his political advancement section. to Lissner. Since the organization of the board Boss Lissner has been chairman, and his dictum as such has been accepted hitherto with due humility as law by his official associates and the administration. Mayor Alexander and the council had habitually obeyed without question or hesitation every crook of the boss! finger. Last week, however, witnessed an open revolt against boss dictation, the mayor and the council, fearless of "the recall," peremptorily rejecting the schedule of electric lighting, telephone and power rates fixed by the municipal board of public utilities, although such rates had been approved by reputed experts. TURKEY IN DARK AGES

It seems incredible that in this age of scientific progress and intellectual enlightenment that cities of 1,000,000 inhabitants and upward should be doing business without the aid of electricity or steam, and yet such is the fact in Turkey. This condition cannot be properly the part of the people. Under the old regime laws forbade electric wires to be run from one house to another and the call. granting of concessions for the construction and maintenance of any public utilities was prevented.

OM BALD HEADS

Resorcin is one of the latest and most effective germ-killers discovered by science, and in connection with Beta Naphthol, also a powerful antisentic. combination is formed which destroys the germs, which rob the hair of its nutri-ment, and thus creates a clean and healthy condition of the scalp, which pre-cents the development of new germs.

Pilocarpine is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to disease. Yet it is not a coloring matter

The famous Rexall "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol and Pilocarpine, combined with pure alcohol, because of its cleansing and antiseptic qualifies. It makes the scalphealthy, nourishes the hair, revitalizes the roots, supplies hair nourishment and

sti nulates a new growth.

We want you to try a few bottles of ferall "92" Hair Tonic on our personal guarantee that the trial will not cost you guarantee that the trial will not cost you a penny if it does not give absolute satisfaction. TANNERSVILLE, N. Y., July 3.—
To buy 100,000 acres of land annually in Palestine in order to establish colonies of Jews, was the principal proposition of a practical nature placed before the fourteenth annual convention of the Federation of American Zionists at its sessions here.
This proposition was made by the national fund commission. The committee reported that in addition to

"That a secret Jew's order should deem it necessary to declare heretical a movement which seems to have gained adherents in Jewish circles, is deserving of note. An attempt at an authoritative declaration would be premature at this time; it may, however, be advisable under the circumstances to assign to some member the writing of an exhaustive paper on the subject."

CAPITAL TO BE PROBED

SACRAMENTO, Juply 8.—The Darrow grand Jury will meet Friday to investigate charges of bribery in connection with the attempt to revoke the saloon license of L. A. Raffetto for permitting minors to drink in his saloon. Charges have been made to the grand jury that money was passed to save the Raffetto license and an investigation that prom-

license and an investigation that promises to be one of the most important ever started by a Sacramento grand jury has been ordered.

It is charged that five trustees voted to save Raffetto's license in the face of positive admission on the part of Norman Randall and Frank Sullinger, each 16 years old, that they had purchased several glasses of beer at the saloon. The charges against Raffetto were 'preferred by Chief of Police Ahern' and a hearing was given the case on Monday evening, June 19. Eugene Raffetto, son of the saloonkeeper, admitted that he had sold the liquor to the minors. By a vote of 5 to 4 the trustees refused to revoke the license.

VENDORS' YELLS WORSE THAN TABOOED BELLS

LOS ANGELES, July 3.—The gracious favor of a city council in permitting vegetable venders to yell their wares, if they do it "respectfully," was invoked for the first time yesterday, and, as a result, the residence districts are again up in arms on the street-crying question. It appears that the peddlers of cabbages and oranges do not agree with either the council or the householders in their definition of what respectful means. They assert that, so long as means. They assert that, so long as horns and bells are muffled by the city ordinance, they expect to make the most of their prisent privileges. Police Judge Chambers, who rose to prominence in the question through the number of peddlers he fined for street noisness, says that the yells are worse than the

Destroy Any Fleet.

WASHINGTON, July 3.—The fortifications guarding the city, of New York and other important centers of population on the seapoard, are considered invincible by Major General Leonard Wood, chief of staff of the United States army. He believes the great guns of the fortifications could destroy any fleet that might be sent against them. His views have been submitted to the House committee on expenditures in the War Department. The necessity for co-operation of mobile forces with the great forts is emphasized by the general. Large bodies of troops would be needed to prevent an enemy landing near the points the forts defend.

In the event of an invasion, General Wood believes the vicinity of the largest cities would be the scene of fighting. No remote coast district would be selected by an enemy to land, but rather the neighborhood of some vital point at which a quick blow might be struck.

DRIVES OUT S.S.S. MALARIAL POISONING

Malaria is a disease which gradually destroys the strong, nourishing elements of the blood. When the malarial poison begins to absorb the rich, red corpuscles of the circulation, we see pale, sallow complexions and a general impairment of health. As the blood becomes weaker the appetite fails, digestion is disturbed, chills and slight fever are frequent, and in aggravated cases boils and eruptions break out on the flesh. Malaria is blood poverty, and the only way to cure the trouble is to enrich and purify the circulation. S.S.S. is especially adapted to the cure of malarial troubles because it contains no harmful minerals, and while ridding the system of the malarial germs, S. S. The fight was over a hay bill: Mrs. Van Balvaren tried to collect from Mrs. Dorn and the latter said the statement was incorrect. Starting in the stable belonging to Mrs. Dorn, the fight did not finish until the women had wrestled and scrambled across the street, to where Mrs. Van Balvaren had hitched her team, It was at the side of the buggy that the real fighting took place. Mrs. Van Balvaren, with her hat smashed flat on her head and her hair streaming about her shoulders, warned Mrs. Dorn to keep her distance, and as the latter came to renew the conflict, the whip sung through the air, slashing Mrs. Dorn across the face, on the shoulders and waist. Control Situation With Firm Hand.

PARIS. July 3.—Foreign minister Deselves did not remain in Paris today, but accompanied President Falleries to Holiand. Yesterday it was announced that M. Deselves had changed his plans and would stay here as a consequence of the new situation brought about in Morocco by the determination of Germany to send a gunboat to Agadir. Premier Callaux has taken over the conduct of the foreign office pending Mr. Deselves' return and will direct France's attitude concerning German intervention in Morocco.

Morocco.

As France was merely notified of the fact accomplished, namely that a German warship had been despatched to Agadir, it is possible that this government will not send a reply to Berlin, but, like Germany, will decide upon a course of action and then adopt it.

Although the German action was sudden, France had been anticipating a move of some sort by Germany, because of Spain's extension of her military operations in the north of Morocco, a policy which France has steadily opposed as leading to the idea that the agreement of Algeciras was dead and that Morocco was to be dismembered. The French press continues calm, but urges the government to conduct the situation with a firm hand.

The Bourse opened weak today as a result of Germany's move in sending a

BERLIN, July 3. - Germany, in send-BERLIN, July 3. — Germany, in sending the gunboat Panther to Agadir, and staking a claim on Southern Morocco in anticipation of the possible partition of the country, according to the general interpretation of the German press, will take its share in the province of Sus, with its rich copper and mineral deposits and its great agricultural possibilities. and its great agricultural possibilities, unless France and Spain withdraw from the present adventure and respect the in-

tegrity of Morocco.

This is confirmed by the semi-official statement which appears in the "Cologue Gazette," pointing out that France and Spain, under assurances of purely temporary and benevolent action, both temporary and benevolent action, both landed troops and occupied territory in violation of the Algedias act.

JUSTIFICATION CLAIMED.

Germany, says the statement, is justified. In taking steps to protect her interests, she has not intention of remaining permanently in Agadir, but will not leave that town before regular conditions are restored in Morocco.

This phase evidently means that until

the retirement of the Franco-Spanish expedition the troops will remain.

BERLIN, July 3.—Having shown her hand in sending the gunboat Panther to Morocco, Germany is awaiting the action of France, which it is expected will be taken only after consultations with Great Britain and Russia.

Great Britain and Russia.

It is hoped here that the step taken by the German foreign office will lead to a general discussion of the Moroccan situation by the four powers principally interested and the question definitely settled. Otherwise, the Germans will remain in Morocco until the Franco-Spanish expressions have been withdrawn. A general European conference is not expected.

Pittsburg Pastor Accused of Making Statements at Variance With Teachings.

PITTSBURG, July 3.—Rather than face a heresy trial, the Rev. John H. Dietrich, pastor of St. Mark's Reformed church here, resigned yesterday, to take effect at once. The resignation was accepted, although the congregation upheld him against the committee of the Allegheny class. Two months ago this committee recommended that he be tried for alleged heretical utterance. The committee charged that Dr. Dietrich in several sermons made statements at variance with the catechism which is accepted by the reformed church.

LARGE ATTENDANGE AT CAMP MEETING

Services at Beulah Park Sunday Were Interesting and Crowded.

The camp meeting of the Christian and Missionary Alliance at Beulah Fark yesterday brought out audiences that filled the large auditorium. The day began with a prayer service at 6:30 oclock. At 9 oclock Mr. Bright gave a lesson on the different feasts of the Bible. At 10:30 the service began in the large auditorium by a song service, after which Fastor Marsh gave a clear and impressive address on Gal. 2:20. Coast Artillery to Engage in All Night "Conflict" at Rosecrans.

SAN DIEGO, July 3. — With six officers and 74 enlisted men in attendance the fifth and eighth companies, California Coast Artillery militia, are today being drilled with the heavy guns at Fort Rosecrans under the direction of Captains T. H. Koch and Franc Leccoq and First Lieutenant F. M. Hinkle, U. S. A., who are on duty at Fort Rosecrans. The first important exercise of the oncampment probably will be held tonight, when a simulated attack on the fortifications will be made.

The exercise is expected to extend throughout the night, the San Diego men manning the fortifications to repel an attack which will be made on them by the regular companies.

The Fort Rosecrans soldiers will be taken from the fort in boats and will attempt to land at the batteries and capture the guns from the harbor side. This will give the maneuver the appearance of actual service and will prove valuable instruction to the militiamen.

for the first time since taking the reins of government.

"This is an unpleasant inheritance from the last administration, to be saddled upon the citizens of Berkeley, especially when an ordinance which precipitated a suit by the Feoples Water Company contains a proposition which will require the city itself to pay an additional \$12,000 annually for water for the city departments alone." Mayor Wilson was apparently in pleasant spirits, however, despite the law suit inherited, and took up the duties of his office with vigor. It is not likely that any further changes at the city hall will become known until next Wednesday's meeting of the City Council, when permanent appointments to the commissionerships of finance and revenue and of public works, as well as city attorney, assistant city attorney and probably building inspector will be made.

PASTIMES WIN FIELD STUDENTS AT YALE ARE SORE AT WAY ATHLETES ACT

NEW HAVEN, July 3. — It is generally believed here that a big upheaval is impending in Yale athletics. The belief is quite general that an upheaval is necessary. Yale has lost every series in the four major sports this year, except football and in this its team failed to defeat Harvard and was defeated by Brown and West Point.
It is understood that two of the inci-

dents of the reforms will be the fight that two of the professional coaches. John that two of the professional coaches, John Kennedy and Billy Lush, must make for their places.

The proposed reforms go further, however, than the replacing of two or three professional coaches in the university. Among changes contemplated is a system of athletic control which shall not leave the captains supreme.

BAY VIEW GUN CLUB HOLDS TRAP SHOOT AT ALAMEDA

SAN FRANCISCO, July 3. — Everything is in readiness for the monster harness meet which will be held at the Stadium tomorrow. Ninety-four horses have been entered, which is a record for the coast. The best pacers and trotters in the State will compete, and some new Stadium fecords may be expected. There will be seven class races on the card and several novelty events, which will keep up the interest of the spectators. The races will be one mile and the best two in three heats.

The race which is attracting the most interest is the novelty race, the prize winner being the horse that goes a mile the closest to three minutes. Any class of horses is eligible. The event is a new one in coast racing circles, and the short time in which the drivers have had to practice makes the winner uncertain. The classification committee is composed of W. J. Kenny as chairman, Joe Culcello, James McGrath, Colonel Higginottom and Hans Frellson.

The officials of the day are:

Starter, W. J. Kenney; judges, James E. Finch, John Nowlan, Bert Edwards; timers, A. F. Gormerly, Gus Lindener, George Glannimi; marshal, Fred Lauteryasser; assistant starter, Henry Munson.

OAKS SLIP IN MERRY CHASE AFTER COAST LEAGUE FLAG

world in the land of the No Use to Weep or Moan; There's Lots of Chance Yet to Bring Home Pennant

The jinks is surely with the Oaks when they tackle Vernon. That was demonstrated yesterday in the double header between these two teams. Happy gathered the before lunch scance and then he and his Rock Pilers went over the pond into Cal Ewing's preserves and trounced the Wolvertons again.

As for the morning game, Happy had all the horseshoes, and that he can't deny. His outfit only got as many bingles as did the Oaks, but they counted a whole lot more, and in a critical moment our usually steady outfielder in left misjudged a fly ball and then watched it bounce over the fence, Patterson, the fellow who swatted it, getting a homer. As men were on the paths that wallop counted much in the score of the game.

As for the Oaks, they hit as well as Happy but couldn't make them count. For instance, nary a man was on the paths when Zacher grabbed off his long bingle; neither was any one on when Ables walloped the pill out of the lot in the eighth inning.

CROWD WAS AN IMMENSE ONE. With thousands of fans in the hills and as before mentioned it was a jinks for In the afternoon contest Wolverton

In the afternoon contest Wolverton gave Pitcher Gregory another opportunity to show the fains what he had and the Jinks must have still been on hand for Gregory had nothing.

Right off the reek he was easy pickings for the Hooligans and it continued until the final round was over.

Besides this he bloomed in fielding his position and was also as wiid as a March hare when the said hare sees the huntsmen and the dogs coming over the hill. For Vernon it was Hitt, and Roy must have gathered a lot of new ones to spring on the Oaks, for he was hard to fathom and then again luck was with him on several occasions. CUTSHAW IS CANNED.

It wasn't much of a game to peep on and was without action except in the fourth inning when Cutshaw and Hildebrand got into a jam and Cuty was rushed out of the game and fined \$25.

The second sacker found fault with the way Hildy called Kane safe at first and this started the fracas. No use to go further into the details except that the double defeat was a hard blow to the Oaks. But when they left for the south last night hope was still alive and back they promise to come next week with the Angels among the thoroughly defeated. Here's the tale of both defeats:

ANGELS AND SEALS SPLIT. LOS ANGELES, July 3. - The Seals and the Angels split even yesterday in two exciting and interesting games, the visitors winning the morning affair, 14 to 11, and the locals capturing the matinee contest at 2 to 1.

As is customary, the morning game was the spasm of the week. There were 55 hits in this, including four home runs, two triples and two doubles. Moore of the Angels made two homers, scoring two other runners each time. Weaver hit a home, triple and a single,

weaver hit a home, triple and a single, scoring Powell and McArdle with his homer in the fifth, while Catcher Jerry Sheehan, helping the Seals out, hit a homer in the fourth, singles in the third and sixth, and fanned out in the ninth. The locals made 19 swats off Suter, and he only stuck to the end because Mohler and the infield bulled the life out of him with the talk that there never was any danger.

The atternoon game was a pitchers' battle between Delhi and Miller and Delhi won because of three bunched hits in the fifth round. Del fanned eight, walked two and hit one, but kept the five hits well scattered.

Ute Indians End Three Days' Dance

Red Men Believe Religious Hen T. W. Harris, Judge.
Prancing Will Prevent Illness Among Tribesmen.

GRAND JUNCTION, Col., July 3 .-At sunset Saturday 300 Ute Indians from Uintah and Uncompander Valleys finished their three days' sacred sun dance at White Rock, ninety miles from here, and in the center of the desert Uintah reservation. It has been the custom of the Utes for years to hold this dance annually. They believe that it will prevent illness among their tribesmen, and especially is it a preventive of consumption.

For seventy-two hours the Indians went without food except such nourishment as could be sucked from a willow twig carried in the mouth as they would incessantly prance back and forth and around the sacred trees of the tribe.

Shirt Worth \$2.50 Subject of Manager of Chicago Nationals Learned Court

SAN FRANCISCO, July 3. - A shirt worth \$2.50 was the subject of a learned opinion handed down today by Judge Wm. B. Gilbert of the United States Circuit Court of Appeals in support of the army's efforts to stop the sale of regulation clothing by improvident soldiers to pawnbrokers and secondhand men. The shirt was bought from a soldier by Carl Ontal of Hondulu. Ontal was prosecuted, convicted and appealed to the

prosecuted, convicted and appealed to the higher court on the ground that a soldier's clothing is as much his private property as his pay, and the merchant buying it does not "receive stolen goods."

Judge Gibert said in reply
"The clothing is part of a soldier's equipment for the service which he is to render to the United States. He gets no property right in it other than the right to wear it. It remains the property of the government."

The army officers stationed at the Presidic of San Francisco lately have broken up the secondhand gang operating there, but no appeals were taken in those cases.

GREAT 'SNAP' BEAN

W. D. Nichols, processor of the chamber of commerce, has received and placed on exhibition at the chamber a specimen of a new bean of the "snap" variety grown on the farm of the California Nursery company at Niles.

The bean pod measures nine inches in clinumference. The nursery men have not named the bean as yet, for it is a new variety grown for the first time this year.

It is expected by the growers that the seed will be an excellent demonstration of the adaptability of the soil and climate of the county to produce perfect vegetables.

This is to be a permanent organization which will make a bid for every prominent national gathering henceforth. San Francisco, they say, has been crowded out in this matter of conventions by other cities, which cannot offer half the natural attractions. This league will spend \$25,000 to make a success of the reception the city will extend to the convention. The league holds that the inspiration and help given to California teachers by having the sessions in their midst will be cheap at the price. During the intermission of their work in the various sections of the convention, the delegates will find a bewildering array of entertainment.

MILLINERS SUE TO

TEST THE GAME LAW

NEW YORK, July 3.—The Eastern
Millinery Association brought suit
here today in the United States Circuit Court to test the constitutionality
of the amended forest, fish and gamelaw of this state. The section of the
law objected to forbids the sale after
July 1 of any plumage specified in
the act, whether imported or not.
The petitioner asks an injunction
against the attorney general and the
state game commissioner, pending determination of the suit. The contention is that many thousand dollars
worth of plumes, imported before the
law went into effect, are still carried
in milliners stock.

EUGENE WARE, POET POLITICIAN AND LAWYER, DEAD

Pension Commissioner Under Roosevelt Succumbs to Heart Disease.

HAND OF 'IRON QUILL' IS STILLED BY DEATH

Deceased Was Veteran of the Civil War and a Pioneer of Middle West.

COLORADO SPRINGS, Colo., July -Eugene F. Ware, United States pension commissioner under Président Roosevelt, and one of the best-known lawyers in the West, died suddenly from heart disease Saturday night at Cascade, a summer resort a few miles

Cascade, a summer resort a few miles west of this city.

Eugene F. Ware was born in Hartford, Conn., May 29, 1841, and when a young man moved to Iowa with his parents. When nineteen years old he joined the First Iowa volunteer regiment on the day Fort Sumter was fired upon, and served throughout the civil war. He was mustered out as captain of the Seventh Iowa cavalry.

After the war, Mr. Ware moved to Fort Scott, Kan., and later went to Cherokee county. It was there that he took up the study of law. he took up the study of law.

ACTIVE IN POLITICS.

Until a few years ago Ware took an active part in politics, having moved from Fort Scott to Topeka in 1893. He served five terms in the Kansas senate and was appointed commissioner of pensions by President Roosevelt in 1902. He resigned two years later

later.

According to close friends, when Mr. Roosevelt offered Mr. Ware the place he declined, saying he did not like the work.

To this Mr. Roosevelt replied:

"That is just the reason I want you to take it. The longer you hold the job, the less you'll like it."

job. the less you'll like it."

While Captain Eugene, F., Ware was commissioner of pensions he drew forth a morm of disapproval from Grand Army men by his reference in an annual report and in a speech in San Francisco "to an obelisk of gold," which he said could be erected with the money paid out in pensions.

"OBELISK OF GOLD."

Commissioner Ware in 1903 attended a meeting of Thomas post, at San Francisco. The commissioner, called on to speak, after explaining that the government, since its establishment, had paid three billion two hundred millions of dollars in pensions, con-

millons of donars in pensions, concluded:

"One Sabbath day I figured that if I had all this vast sum in coined gold I could build of it an obelisk ten feet square at the base and one hundred and seven feet eight inches in height."

As "Iron Quill," Mr. Ware became famous for short poems he published. One of these that attracted much attention was that referring to Dewey's victory over the Spanish fleet in Manila bay. Probably the poem which brought Ware the greatest recognition was "The Washwoman's Song."

of Mare Island Closed

WASHINGTON, July 3.—The Mare Island navy yard will no longer be open to visiting representatives. of foreign powers, and the equipment, capacity and materials in the yard will be kept secret from the general public. The protests in Congress and from various parts of the country that the military and naval secrets of the United States are becoming known to every foreign power are responsible for the new order just issued by the navy department and which applies to every navy yard in the country. Secretary Meyer has instructed every department head and navy yard commandant henceforth to observe the strictest secrecy. American navy yards will no longer be open to visiting officers and naval experts from foreign countries.

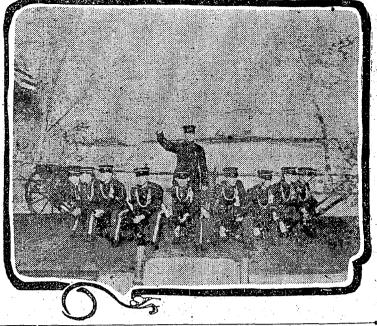

fiting officers and naval experts from foreign countries.

Under the old system a visiting officer was shown every courtesy in any navy yard of the United States, but the cry that our military secrets were becoming known abroad has caused a new policy to be established. Visitors may be shown through the residential sections of the yard and at times through some of the ships, but they are not to be piloted to the points where they would be enabled to gauge the capacity of the American navy yards for making repairs to crippled or disabled ships and the number and size of ships that can be accommedated.

U. S. A. BOYS' FEATURE OF CLASSY PROGRAM AT BELL

U. S. A. Boys in Thrilling Maneuvers at the Bell.

A bill that is altogether inspiring, particularly appropriate for this holiday week and yet replete with some of the best comedy acts in vaudeville is the particularly happy combination that the Bell Theater. Is offering its numerous patrons this week. Patriotism is indeed paramount in the offering of "The U.S. A. Boys," the big feature of the program. The marvelous martial maneuvers of this score of finely drilled and trained young men is indeed an inspiring sight. It is a grand military spectacle that everybody can enjoy. The clock-like work of this corps of soldiers is a marvel to the unlitiated. Their act comprises various drills and maneuvers of the Manual of Arms in addition to a highly realistic attack upon a fort by the navy of a supposed enemy. The attack, the seige, the rescue by the war-boats from "home" and the repulse are all shown in brilliant if somewhat noisy fashion, the machine guns keeping up a lively tatoo throughout the engagement. Every maneuver which might attend upon an action of the kind is demonstrated, and for twenty-five minutes there is such unusual entertainment that every nerve is on tension and

which might attend upon an action of the kind is demonstrated, and for twenty-five minutes there is such unusual entertainment that every nerve is on tension and the audiences fairly in the throes of the impending battle.

Comedy begins the minute Mann and Franks appear. One thing is certain, whatever this well known team have in hand, there is always fun in big "chunks" and they are always in the mood to put it over in god shape. "From the sublime to the ridiculous" is a terse phrase aptly expressing the melange of merriment they hand out. While they might coax the tears with a pathetic passage, they cause you to forget them in a hurry in a hurricane of laughter. Miss Franks is a sweet and highly cultured singer and they both are heard in some real classy song numbers. "Managerial Troubles," realistically portrayed, constitute the offering of those popular favorites, Nick Long and Idalene Cotton. The opportunity is provided for several of Miss Cotton's clever impersonations, among which is an imitation of Mrs. Fiske in "Salvation Nell." Anna Held, and an original conception of their own, "The Dagos." It is all worked up in a "back stage" scene with Nick Long in the role of stage manager. Hebrew comedy, not a caricature, but real wit and humor of the Jewish order, brings Mort Fox round after round of applanue. His best audience, would be Manila bay. Probably the poem which brought Ware the greatest recognition was "The Washwoman's Song."

"For she knows she has a friend. Who will keep her to the end."

The officials of the government are beginning to realize that the United States has been too liberal in exposing its methods and military preparations and that it is high time that the navy and war departments profit by the example of various foreign powers, particularly Japan, which is unusually secretive with regard to military preparations.

in Cell.

NEW YORK, July 3. — Porter Charlton, who has been in the Hudson county jail year, pending the outcome of Italy's demand for his extradition on the charge of wife murder, is said to be developing considerable art talent. The inside walls of the jail have been done over recently and Charlton's decorations are said to be really meritorious. The prisoner spends much time reading and shows great interest in work on international law. Much of the work keeping the jail is done by trusties and Charlton is boss of one of these

gangs.

Paul Charlton, of the board of insular affairs, who was appointed by President Taft last Friday to the position of federal judge of the department of Porto Rico, has notified Porter Charlton, his son, that he will come to see him before leaving the country. The fight to have Charlton returned to Italy is being pressed by Captain Henry Harrison Scott, U. S. A., the brother of the slain woman.

Your Hair Can Be Long, Luxurlant and Glorious.

Let us help you to attain a lux-uriant, healthy, beautiful head of hair. Take our advice, try a bottle of

Parry's Hair Tonic and Dandruff Remedy.

This tonic costs only 50c, but every bottle is worth a fortune to your head. Cleans the scalp, feeds the pores, renews life in partly dead hair roots and enables a new growth to appear. Eradicates dandruff and keeps it away. Don't hesitate. Don't take chances. Use a bottle at my risk, and if you are not entirely satisfied, I will refund every cent you paid for it. There isn't anything better and I know of nothing so good. Phone me now before you forget it. and I'll deliver a bottle to your door.

Price, 50 cents a bottle.

Formula For Hair Tonic

Food for the hair is as necessary for its maintenance as food for the body. Proper nourishment prevents the hair from becoming dry, brittle and dull in appearance. When the scalp is not able to supply the hair with the required food elements the gloss and life disappear. It is necessary to use the proper care in selecting a suitable tonic. If a tonic contains lead or other poisonous substances, it is sometimes injurious to the scalp. This formula contains harmless ingredients which are both nourishing and invigorating. It removes the dandruff, nourishes the hair and leaves the scalp in a clean and healthful condition.
